Information and communication technology (ICT) is such an integral part of our lives that it is embedded right across the curriculum. Computing capability is an essential skill for life and enables learners to participate more readily in a rapidly changing world.

We, in Junior School incorporate ICT into every lesson. ICT can help motivate, stimulate and if necessary, re-engage the students in the ongoing lesson. Challenging tasks become more manageable and mundane activities more accessible with the help of ICT!

# EXAMINATIONS

The system of education is mostly examination ridden which aims at testing the achievement and success.

The examination is the center of studies and hard work. It is a motivating force to work.

Examinations are proof and guarantee of students' efficiency. They provide us a proof of the fitness of the student for promotion to a higher grade/class.

The Periodic Assessment 2 for CBSE was conducted from 26<sup>th</sup> November to 12<sup>th</sup> December, while IGCSE sat for their Formative Assessment 2 from the 25<sup>th</sup> November to 12<sup>th</sup> December.

# ***PTM & OPEN HOUSE***

Parent teacher meeting is an effective way through which parents can discuss several issues that they feel are hindering their child's learning. Face to face communication with the teacher immensely helps the parents to plan out the learning process of their child.

We Junior school had our PTM for IGCSE and Open House for CBSE on the 7<sup>th</sup> November 2019, to discuss the performance of students with their parents. Parents were given feedback on their wards' performances in the exams.

It was a great interaction between the teachers and the parents for the development of their children where they discussed both the strengths and areas of improvements. The progress report for the first term was shown to the CBSE parents and their suggestions were noted.

The meeting came to an end with the conclusion that the progress of the students depends on the joint effort of parents and teachers.
