## UAE National Agenda Parameters

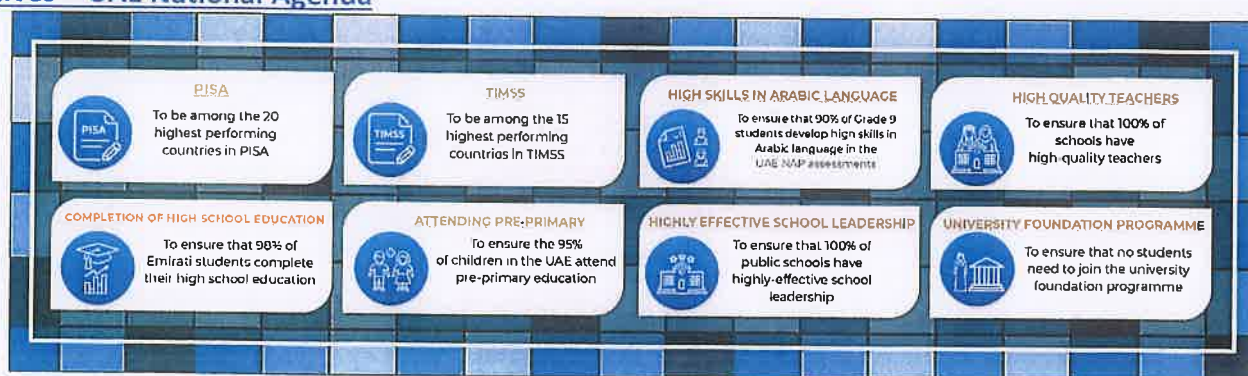

In 2014, H.H. Sheikh Mohammed Bin Rashid Al Maktoum (Vice President of UAE and Ruler of Dubai) launched the UAE National Agenda. It includes a set of strategic educational targets that shape the next phase of educational development in the UAE. The targets cover a wide range of areas that will have an impact on the quality of education and as well as students' achievements across the different phases.

**"Education is a fundamental element for the development of a nation and the best investment in its youth." UAE VISION 2021**

### The UAE Vision 2021

National Agenda emphasises the development of a first-rate education system, which will require a complete transformation of the current education system and teaching methods. The National Agenda aims for all schools, universities and students to be equipped with Smart systems and devices as a basis for all teaching methods, projects and research. There will also be significant investments to promote and reinforce enrolment in preschools as this plays an important role in shaping children's personalities and their future.
